Queen Elizabeth II - Sterling Machins.

The 'swinging sixties' will long be remembered for a variety of reasons, but for many G.B. philatelists it can mean only one thing - the introduction of the Queen Elizabeth 'Machin' series of postage stamps. The design, based on a plaster cast of the Queen's head in profile by Arnold Machin, was both simple and elegant, and in stark contrast to the cluttered 'Wildings' the new series of stamps would progressively replace.

The Machin bust of Queen Elizabeth II
is probably the most reproduced
work of art in the world!

The Perfin Society uses code letters for specific postage stamp issues, and the Sterling Machins have been allocated the code letter 'V'. These code letters are used as shorthand in the *New Illustrated Catalogue of G.B. Perfins*, and since publication of the first section in 1994, individual stamp details for each issue have been recorded against each known G.B. Perfin. Although the G.B. catalogue will not be 'complete' until **2016**, now seems a good time to report on this issue, along with an analysis of the stamps and a list of the Perfins involved.

The low-value postage stamps were printed in photogravure on un-watermarked paper by Harrison & Sons in panes of 240 stamps arranged in twenty rows of twelve stamps.

Small size, definitive issue - 14 stamps, 17 including variations.

- 5 June **1967** - 4d Sepia, 1/- Bluish-violet, 1/9d Orange & Black.
- 8 August **1967** - 3d Violet, 9d Myrtle-green, 1/6d Greenish-blue.
- 5 February **1968** - ½d Orange-brown, 1d Light olive, 2d (Type I), 6d Reddish-purple.
- 1 July **1968** - 5d Royal Blue, 7d Emerald, 8d Vermilion, 10d Drab.
- 6 January **1969** - 4d Vermilion, 8d Turquoise-blue.
- Early **1969** - 2d (Type II).

The high value postage stamps, which replaced the Wilding 'Castles', were recess-printed by Bradbury, Wilkinson & Co Ltd on un-watermarked paper in sheets of four panes (arranged 2x2), each pane consisting of 40 stamps (arranged 8x5).

Large size, high values issue - 4 stamps.

- 5 March **1969** - 2/6d Brown, 5/- Crimson-lake, 10/- Ultramarine, £1 Black.

In turn, these high value stamps were replaced by 'decimal' versions on the 17th June **1970** for the 10p, 20p, and 50p denominations, and the 6th December **1972** for the *re-drawn* £1.

Decimalization ('D-day') was on the 15th February **1971**, and saw thirteen definitive sized 'Decimal' Machins issued - ½p, 1p, 1½p, 2p, 2½p, 3p, 3½p, 4p, 5p, 6p, 7½p, 9p, and 10p.

The ½p coin was de-monitized in December 1984.

The same basic information is presented below in tabular form. Please note that the categories involving a question mark are the result of incomplete recording in the late 1980's and early 1990's of either colour or type. It is hoped that 'in the fullness of time' these will all be resolved and assigned to their correct category.
